

5TH ANNUAL WILD & SCENIC FILM FESTIVAL IN SEATTLE!

WEDNESDAY APRIL 18, 2018

5:30-9:30 PM

SIFF CINEMA EGYPTIAN

Be a film festival sponsor. Join Washington Water Trust in bringing the wonder and excitement of the Wild and Scenic Film Festival to Seattle. We will host our 5th Annual Wild and Scenic Film Festival on Wednesday, **April 18th, 2018** from 5:30-9:30 pm at the SIFF Cinema Egyptian. Screening short films from around the world, this event explores humanity's complex, yet vital relationship with nature.

The theater will be filled with people who share our love of natural places and the rivers and streams that give them life. Your sponsorship will inspire local action and directly support Washington Water Trust's critical work: restoring flows to our state's depleted waterways, so salmon and steelhead can spawn and thrive.

I love this festival because it is more than just pretty pictures and words of gloom and doom about climate change. The films that I have seen at this festival are inspiring; stories of real people enjoying successful lives protecting, researching and restoring the environment. It is a wonderful collection of stories that show how we can and do find community with the natural world, bridging the gap between "humanity" and "nature". The food isn't bad either! I look forward to the next Wild and Scenic Film Festival in Seattle.

— Mike Justa, Wildlife Naturalist & Educator

The need is real. Society's demand for water is outstripping supply, and that's leaving many of our rivers and streams low or dry, which is leaving our salmon and steelhead high and dry, and even more imperiled. But together we can help.

At the right time, in the right place, even just a small amount of water left instream can have an immense positive impact. Washington Water Trust is a neutral, non-regulatory nonprofit. We believe in collaboration over litigation. Since 1998, we've been leasing and buying water from water right holders. And working side-by-side with farmers, ranchers and developers to innovate ways to use water more efficiently. All so more water can be left instreams. So salmon and steelhead can spawn, wildlife can thrive and recreational opportunities can abound.

Help keep Washington's rivers wet! Put your company's name beside ours as we celebrate adventure and conservation through the power of film. Become a Wild and Scenic Film Festival sponsor today!
