

HEALTHY RIVERS PARTNERSHIP

Do you want to show that you care about Washington's environment?

Do you support healthy rivers and streams in Washington?

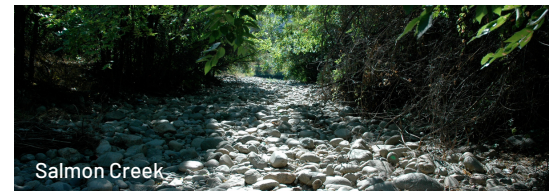

Does your business/organization depend on water?

The Healthy Rivers Partnership is a way for businesses and organizations to give back to rivers and streams across Washington. Healthy Rivers Partners help restore and protect water in rivers and streams for salmon that need abundant cool clean water and communities that love and depend on healthy freshwater resources and flowing rivers and streams.

THE CHALLENGE FACING WASHINGTON'S FRESHWATER

Rivers and streams need water year-round to stay healthy and support fish and communities. Out-of-stream uses in the summer often dry up rivers, which leaves salmon at risk and diminishes the recreational, cultural, and spiritual value of our rivers. We have pushed many of Washington's rivers to the brink and climate change is making their precarious condition worse. It's critically important that we act now to protect and restore as much water instream as possible before it's too late!

Create a sustainable freshwater future for Washington as a Healthy Rivers Partner!

WHY SHOULD YOU BECOME A HEALTHY RIVERS PARTNER?

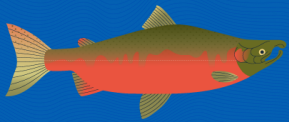

- We all depend on healthy rivers and streams. Healthy Rivers Partners help restore the water they use!
- Washington's water is a public resource that belongs to everyone, today and tomorrow. Let's keep it healthy!
- Our rivers and streams make Washington an incredible place to live and play. Flowing waters benefit us all!
- Washington Water Trust is a local non-profit working with local partners for science-based local solutions.
- It's good business! Customers and clients prefer to support a business that gives back.

PARTNERSHIP LEVELS

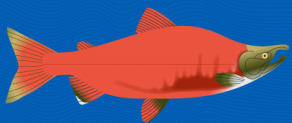

CHINOOK LEVEL (\$10,000+)
